Under the Loan/Lease arrangements Celanese the number of charges has been allotted for this State and the number now given is barely sufficient even for the essential requirements of the Depts of Govt so much so it may not be possible to spare any charges for the Municipality, or any of the above quota in the Negotiations. Perhaps the Mill Commissioner may have to purchase from private parties if available and if there is an urgent need for loans advise for perusal and orders

SIR

I have the honour to state that the manure and silt accumulated in the City are being got removed, at present, by two agencies, the manure by means of carts belonging to contractors who are given the right of removal on contract basis every year, and (2) the silt and other road side rubbish by silt carts engaged directly by the Municipality Both these systems were found to be defective on several occassions during the past years, since the Municipality would be helpless if these carts stopped away from or attended irregularly to the work of removal This difficulty is felt all the greater this year on account of the irregular attendance of these carts, due to several reasons A good lot of rubbish is found collected in several parts of the City and all efforts have been made to get the same removed by the Municipal lorries now available But this has not been effective in asmuch as the very few lorries in use at present are not able to cope up with the situation Unless some immediate measures are taken to prevent the recurrence of such a situation, the health of the City might be greatly impaired A system of rapid removal by means of lorries has been found to work very satisfactorily in several places and it may be conveniently tried here also With this object in view, it is proposed to purchase at least two lorries for the present mainly for this work But under the present international situation, lorries cannot be had easily, as they are under the control of the Government of India I therefore request that a recommendation may be kindly

made to procure two lorries to this Municipality at controlled rates Necessary provision has been made for the purpose in the current year's budget A separate reference has also been made to the Chief Secretary to Government in this behalf, requesting him to expedite the matter

I have the honour to be,
Sir,

Point out that as stated by you there is no question of purchasing horses at enhanced rates from the Govt of India, as under the present arrangement certain number of chargers have been allotted for the Imperial State and the number now given is barely sufficient even for the essential requirements of the Depts of Govt. As such, it is not possible to spare any chargers for the Rulers out of the present quota. The question will however be considered along with other demands when the next allotment is made for the State. In the meanwhile if the Ruler are in immediate need of horses, they may purchase the same from private parties, if available.
